

Research Roadmap

- Central Hub for Navigation of the Mount Sinai Health System Research Enterprise:

<http://researchroadmap.mssm.edu/rrm/>

Mount Sinai Digital Commons

- Searchable index of all human subject research data sets at ISMSMS:

<http://digitalcommons.us/index>

Digital Concierge Service

Digital Concierge Service will help with:

- Directing to optimal digital services and data sources
- Identifying right data sets
- Formulating and/or executing search queries
- Guiding use of self-service tools
- Advising on Mount Sinai policies including data sharing, security and patient privacy
- Posting de-identified counts for the most common queries
- Aggregating feedback and questions from research community
- Providing informatics support for grant submissions

Where & When:

Digital Concierge Service will provide weekly informatics and data science walk-in clinics at the Icahn Building, 2nd floor, room L2-15.

Walk-in clinic hours are every Wednesday at 4-5pm (you can join “virtual room” at this time: <https://zoom.us/my/digitalconcierge>)

If you are unable to attend you can submit a ticket request at: <http://osticket.mssm.edu/support/>
Directions: Open a new ticket - Select Digital Concierge - Enter your contact information - Select the requested service - Include any additional details.
